AI PRODUCT DEVELOPER / SELECTED WORK

Ideas into systems.

Digital products, full-stack development and AI integration.

1 / SELECTED PROJECTS

June 2025 – Present

FULL-STACK APPLICATIONS

C CRM AI — Manages customers, opportunities, rentals, scheduling, finances and inventory, with reports to track business activity.

G My Garage AI — Aftersales platform with a Python backend, a 3D viewer and mileage tracking to check vehicle status.

AI AGENTS

R Runa · Naval — Designed to query every ERP area, from production and purchasing to inventory and finance, and propose actions.

A Alba · Ceniza — Queries all authorized CRM modules, connects data and generates reports. The team approves changes.

P Pía · Marketing — B2B marketing workflow for drafting WhatsApp and email campaigns, editing by channel and organizing campaigns in a calendar.

APPS & WEBSITES

4 40+ Commerce — Responsive storefront with WhatsApp orders and automated delivery of the Ritual 40+ e-book.

8 8noventa — Pet furniture storefront with a data-driven catalog, product pages and a shopping cart.

2 / EARLIER EXPERIENCE · OPERATIONS IN MALTA
