

IDEAS INTO SYSTEMS

DIEGO FRANCO

AI PRODUCT DEVELOPER

AI & Automation

I connect operations, data and AI through useful business systems and applications. I combine full-stack development with UX/UI design to make complex workflows easier to use.

AI PRODUCT DEVELOPER / SELECTED WORK

Business, data and AI.

Full-stack engineering, business systems, AI integration and workflow automation.

1 / EXPERIENCE & PROJECTS

AI Product Developer

Independent · Oct 2025 - Present

Build React / TypeScript applications, connect APIs and databases, and integrate LLM assistants with RAG and contextual workflows.

1 **Ceniza / Full-Stack CRM & AI**

Built a CRM with React, TypeScript and Supabase. Integrated an AI assistant with RAG, shared context and persistent chat for customer and quotation workflows.

2 **Naval / Business systems**

Developing a modular ERP with TypeScript and Supabase. Built the B2B website and inquiry automation using Make, webhooks and LLM-based request routing.

3 **40+ / E-commerce & UX/UI**

Built responsive storefront interfaces and product journeys, integrating analytics and marketing tracking with a focus on UX/UI.

2 / BUSINESS & LEADERSHIP

Store Manager · Hudson Holdings Ltd

Malta · Sep 2023 - Feb 2025

Led store operations, team performance, sales KPIs and inventory control.
